CASE STUDY
BAT MITZVAH PARTY – KENSINGTON ROOF GARDENS

EVENT BRIEF

- To produce a really fun evening with surprise twists throughout the night.
- To do something different for the reception music.
- To build a video wall for music videos, crowd footage and visuals
- To add more lighting to venue and dance floor
- To provide a Moroccan style chill out tent in the gardens

WHAT WE DID

Working closely with the client we arranged for a number of different acts to appear throughout the night to keep both adults and children on their toes including, shot girls, DJ's, belly dancer, street dancers and dancers.

For the reception we used one of our jazz pianists and the venues elegant grand piano combined with a talented singer to create an intimate reception with a mix of smooth jazz and soul songs.

To spice up the dance floor we built a large state of the art video wall to display music videos to match the music being played by the DJ as well as crowd footage from the dance floor and cutting edge visuals.

To add to the excitement of the dance floor we added intelligent lighting and a lighting controller to keep the lighting vibrant and exciting. We also used this lighting to project and wrap the girls name around the pillars of the venue. We built an authentic Moroccan style chill out tent with Moroccan delicacies and sheesha pipes to provide guests with a "quiet area".
